Summary

I am Supriya, an innovative and detail-oriented 4th-year Computer Science student specializing in problem-solving, software development, and emerging technologies. I leverage technical expertise and analytical thinking to design efficient, real-world solutions. I am eager to contribute adaptability and creativity to a forward-thinking, technology-driven organization while delivering long-term value and growth.

Education

Shri Madhwa Vadiraja Institute of Technology & Management, Bantakal *2022–Present*
Bachelor of Engineering in Computer Science **CGPA: 8.7**
Shyamili INDP PU College, Kidiyoor *2022*
Pre-University Course (PUC) **Percentage: 93.5%**
Shree Narayana Guru English Medium School, Malpe *2020*
SSLC **Percentage: 96.16%**

Skills

Programming Languages: C, Java, Python
Frontend: HTML, CSS, React.js
Backend & Databases: MySQL, MongoDB
Tools: Github, Git, Docker

Projects

Traffic Flow Prediction Using Machine Learning *Developer — 2026*

Technologies: HTML, CSS, JavaScript (Leaflet.js, Chart.js), Node.js, Express.js, Python (Flask, FastAPI), NumPy, Pandas

- Built a two-server system using Node.js and Python (Flask, FastAPI) integrated through RESTful APIs.
- Developed traffic visualization using Leaflet maps, Chart.js and integrated ML algorithms like RF, XGBoost, and LSTM.

Cloud-Based Image Upload & Metadata Service

Technologies: AWS API Gateway, Lambda (Python), S3, DynamoDB, LocalStack *Developer-2025*

- Built a secure, scalable serverless image upload and management service with S3 presigned URLs, DynamoDB, and tested REST APIs using LocalStack.

AI-Powered Multilingual Audio-to-Text Conversion and Summarization *Developer — 2024*

Technologies: Google Speech API, Hugging Face Transformers, Multilingual NLP

- Built an AI-based multilingual audio transcription and summarization tool (English, Hindi, Kannada) with a responsive web interface using HTML, CSS, and JavaScript.

Hostel Management System *Developer —2023*

Technologies: PHP, MySQL, HTML, CSS

- Developed a web-based hostel management system with student registration, block/room allocation, roommate viewing, and admin-based leave approval.

Activities & Achievements

First Place- Frontend designing Competition: Awarded for outstanding creativity and technical implementation in a competitive frontend design event.
Participated in Internal Hackathon and qualified for the Final Round.

CERTIFICATIONS

- **Kyndryl AWS Bootcamp** — Attended Cloud Computing sessions, achieved 5 AWS skill badges, plus hands-on AWS course.
- **CodeChef** — Learn C Programming
- **Infosys Springboard** — Online Cloud Computing, Java Essentials & Progressive Web Applications
